15-1001. Required position and method of turning at intersections. The driver of a vehicle intending to turn at an intersection shall do so as follows:

(1) Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(2) Left turns on two-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of the center line where it enters the intersection and, after entering the intersection, the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(3) Left turns on other than two-way roadways. At any intersection where traffic is restricted to one (1) direction on one (1) or more of the roadways, the driver of a vehicle intending to turn left at the intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of the vehicle and, after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered. (1973 Code, § 11-135)

15-1002. Authority to place and obedience to turning markers. (1) The traffic engineer is authorized to place markers, buttons or signs within or adjacent to intersections indicating the course to be traveled by vehicles turning at the intersections, and the course to be traveled as so indicated may conform to or be other than as prescribed by state law or this chapter.

(2) When authorized markers, buttons, or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications. (1973 Code, § 11-136)

15-1003. Authority to restrict turns. The traffic engineer is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left, or "U" turn and shall place proper signs at such intersections. The making of turns may be prohibited between certain hours of any day and permitted at other hours, in which event the hours shall be plainly indicated on the signs or the signs may be removed when the turns are permitted. (1973 Code, § 11-137)

15-1004. Obedience to no-turns signs. Whenever authorized signs are erected indicating that no right, left or "U" turn is permitted, no driver of a vehicle shall disobey the directions of any such signs. (1973 Code, § 11-138)

15-1005. Limitations on turning around. The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in a business district and shall not, upon any other, street, so turn a vehicle unless the movement can be made in safety and without interfering with other traffic. (1973 Code, § 11-139)

CHAPTER 11

RIGHT-OF-WAY

SECTION

- 15-1101. Signs required at through streets.
- 15-1102. Other intersections where stop or yield may be required.
- 15-1103. Stop signs and yield signs.
- 15-1104. Duty of driver of vehicle entering stop intersection.
- 15-1105. Duty of driver of vehicle entering yield intersection.
- 15-1106. Duty upon emerging from alley, driveway or building.
- 15-1107. Stop when traffic obstructed.
- 15-1108. Obedience to signal indicating approach of train.

15-1101. Signs required at through streets. Whenever this code or any ordinance of this city designates and describes a through street, it shall be the duty of the traffic engineer to place and maintain a stop sign or, on the basis of an engineering and traffic investigation at any intersection, a yield sign, on each and every street intersecting the through street, unless traffic at the intersection is controlled at all times by traffic-control signals; however, at the intersection of two (2) through streets or at the intersection of a through street and a heavy traffic street not so designated, stop signs shall be erected at the approaches of either of the streets as may be determined by the traffic engineer upon the basis of an engineering and traffic study. (1973 Code, § 11-145)

15-1102. Other intersections where stop or yield may be required. The traffic engineer is authorized to determine and designate intersections where particular hazard exists upon other than through streets and to determine:

- (1) Whether vehicles shall stop at one (1) or more entrances to any such intersection, in which event he shall cause to be erected a stop sign at each place where a stop sign is required; or,
- (2) Whether vehicles shall yield the right-of-way to vehicles on a different street at the intersection, in which event he shall cause to be erected a yield sign at each place where obedience thereto is required. (1973 Code, § 11-146)

15-1103. Stop signs and yield signs. (1) Every stop sign shall bear the word "Stop" in letters not less than eight (8) inches in height. Every yield sign shall bear the word "Yield" in letters not less than seven (7) inches in height. Every stop sign and every yield sign shall at night be rendered luminous by internal illumination or by a floodlight projected on the face of the sign, or by efficient reflecting elements in the face of the sign.

(2) Every stop sign and every yield sign shall be erected as near as practicable to the nearest line of the crosswalk on the near side of the intersection or, if there is no crosswalk, then as near as practicable to the nearest line of the intersecting roadway. (1973 Code, § 11-147)

15-1104. Duty of driver of vehicle entering stop intersection. (1) Except when directed to proceed by a police officer or traffic-control signal, each driver of a vehicle approaching a

stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

(2) The driver, after having stopped, shall yield the right-of-way to any vehicle which has entered the intersection from another highway or which is approaching so closely on the highway as to constitute an immediate hazard, but the driver having so yielded may proceed and the drivers of all other vehicles approaching the intersection shall yield the right-of-way to the vehicle so proceeding. (1973 Code, § Code, § 11-148)

15-1105. Duty of driver of vehicle entering yield intersection. (1) The driver of a vehicle approaching a yield sign shall, in obedience to the sign, slow down to a speed reasonable for the existing conditions or shall stop if necessary, and shall yield the right-of-way to any pedestrians legally crossing the roadway on which he is driving, and to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard. The driver, having so yielded, may proceed and the drivers of all other vehicles approaching the intersection shall yield to the vehicle so proceeding; however, a driver who enters a yield intersection without stopping and has or causes a collision with a pedestrian in a crosswalk or a vehicle in the intersection shall prima facie be considered not to have yielded as required herein. This subsection shall not relieve the drivers of other vehicles approaching the intersection at such a distance as not to constitute an immediate hazard from the duty to drive with due care to avoid a collision.

(2) The driver of a vehicle approaching a yield sign, if required for safety to stop, shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. (1973 Code, § 11-149)

15-1106. Duty upon emerging from alley, driveway or building. The driver of a vehicle within a business or residence district emerging from an alley, driveway or building shall stop the vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway and shall yield the right-of-way to any pedestrian as may be necessary to avoid a collision and, upon entering the roadway, shall yield the right-of-way to all vehicles approaching on the roadway. (1973 Code, § 11-150)

15-1107. Stop when traffic obstructed. No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal indication to proceed. (1973 Code, § 11-151)

15-1108. Obedience to signal indicating approach of train. (1) Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this subsection, the driver of the vehicle shall stop within fifty (50) feet but not less than fifteen

(15) feet from the nearest rail of the railroad and shall not proceed until he can do so safely. The foregoing requirements shall apply when:

(a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;

(b) A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train;

(c) A railroad train approaching within approximately one thousand five hundred (1,500) feet of the highway crossing emits a signal audible from the distance and the railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard;

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

(2) No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while the gate or barrier is closed or is being opened or closed. (1973 Code, § 11-152)

15-1109. Obedience required; leaving roadway in order to avoid compliance. (a)

The driver of any vehicle shall obey the instructions of any official traffic control device applicable thereto placed in accordance with the provisions of this chapter, unless otherwise directed by a traffic or police officer, subject to the exceptions granted the driver of an authorized emergency vehicle.

(b) It shall be unlawful for the operator of any vehicle to leave the roadway and travel across private property, or public property devoted to other than highway use, to avoid compliance with an official traffic signal or an official traffic sign or for the purpose of avoiding obedience to directions given by a police officer or any traffic regulation or ordinance. 15-1202. Right-of-way in crosswalks. (1) When traffic-control signals are not in place or not in operation, the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

(2) No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield.

(3) Subsection (1) shall not apply under the conditions stated in subsection (2) of § 15-1105.

(4) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle. (1973 Code, § 11-164)

15-1204. Manner of crossing. No pedestrian shall cross a roadway at any place other than by a route at right angles to the curb or by the shortest route to the opposite curb, except in a crosswalk. However, at intersections where traffic-control signals have traffic stopped in all directions, these provisions shall not apply to pedestrians crossing within the area common to both intersecting roadways. (1973 Code, § 11-166)

15-1205. When pedestrian shall yield. (1) Each pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection, shall yield the right-of-way to all vehicles upon the roadway.

(2) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(3) The provisions in this section have no application under the conditions stated in this chapter where pedestrians are prohibited from crossing at certain designated places. (1973 Code, § 11-167)

15-1206. Prohibited crossing locations. (1) Between adjacent intersections at which traffic-control signals are in operation, pedestrians shall not cross at any place except in a crosswalk.

15-1208. Manner of walking along roadways. (1) Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway.

(2) Where sidewalks are not provided, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway or its shoulder, facing traffic which may approach from the opposite direction. (1973 Code, § 11-170)

15-1209. Pedestrians soliciting rides or business. (1) No person shall stand in a roadway for the purpose of soliciting a ride, employment or business from the occupant of any vehicle.

15-1210. Drivers to exercise due care toward pedestrians. Notwithstanding the provisions of this chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn of his vehicle when necessary and shall exercise proper precaution upon observing any child or any confused or incapacitated person upon a roadway. (1973 Code, § 11-172)

(1973 Code, § 11-204)

15-1402. Signs or markings indicating angle parking. (1) The traffic engineer shall determine upon which streets angle parking shall be permitted and shall mark or sign the streets; however, angle parking shall not be indicated upon any federal-aid or state highway within the city unless the state department of highways and public works has determined that the roadway is of sufficient width to permit angle parking without interfering with the free movement of traffic.

(2) Angle parking shall not be indicated or permitted at any place where passing traffic would thereby be caused or required to drive upon the left side of the street. (1973 Code, § 11-205)

(2) Whenever a vehicle is parked or stopped upon a roadway or shoulder adjacent thereto, whether attended or unattended, during the hours between one-half ($\frac{1}{2}$) hour after sunset and one-half ($\frac{1}{2}$) hour before sunrise and there is not sufficient light to reveal any person or object within a distance of five hundred (500) feet upon the highway, the vehicle so parked or stopped shall be equipped with one (1) or more lamps meeting the following requirements: At least one (1) lamp shall display a white or amber light visible from a distance of five hundred (500) feet to the front of the vehicle and the same lamp or at least one (1) other lamp shall display a red light visible from a distance of five hundred (500) feet to the rear of the vehicle and the location of the lamp shall always be such that at least one (1) lamp or combination of lamps meeting the requirements of this subsection is installed as near as practicable to the side of the vehicle which is closest to passing traffic. The provisions of this subsection shall not apply to a motor-driven cycle.

(3) Any lighted head lamps upon a parked vehicle shall be depressed or dimmed. (1973 Code, § 11-208)

15-1407. When parking signs required. Whenever by this code or any other ordinance of the city, any parking time limit is imposed or parking is prohibited on designated streets, it shall be the duty of the traffic engineer to erect appropriate signs giving notice thereof and no such regulations shall be effective unless the signs are erected and in place at the time of any alleged offense. (1973 Code, § 11-210)

15-1408. Parking not to obstruct traffic. No person shall park any vehicle upon a street, other than an alley, in such a manner or under such conditions as to leave available less than ten (10) feet of the width of the roadway for free movement of vehicular traffic. (1973 Code, § 11-211)

15-1409. Parking in alleys. No person shall park a vehicle within an alley in such manner or under such conditions as to leave available less than ten (10) feet of the width of the roadway for the free movement of vehicular traffic and no person shall stop, stand or park a vehicle within an alley in such a position as to block the driveway entrance to an abutting property. (1973 Code, § 11-212)

15-1410. Parking for certain purposes prohibited. No person shall park a vehicle upon a roadway for the principal purpose of:

(1) Displaying such vehicle for sale.

(2) Washing, greasing or repairing the vehicle, except repairs necessitated by an emergency. (1973 Code, § 11-213)

15-1411. Parking adjacent to schools. (1) The traffic engineer is authorized to erect signs indicating no parking upon either or both sides of any street adjacent to any school property when parking would, in his opinion, interfere with traffic or create a hazardous situation.

(2) When official signs are erected indicating no parking upon either side of a street adjacent to any school property as authorized by subsection (1), no person shall park a vehicle in any such designated place. (1973 Code, § 11-214)

15-1412. Parking may be prohibited on narrow streets. (2) When official signs prohibiting parking are erected upon narrow streets as authorized by subsection (1), no person shall park a vehicle upon any such street in violation of any such sign. (1973 Code, § 11-215)

15-1413. Standing or parking on one-way streets. The traffic engineer is authorized to erect signs upon the left-hand side of any one-way street to prohibit the standing or parking of vehicles and, when the signs are in place, no person shall stand or park a vehicle upon the left-hand side in violation of any such sign. (1973 Code, § 11-216)

15-1414. Standing or parking on roadways laned for traffic. In the event a highway includes two (2) or more separate roadways and traffic is restricted to one (1) direction upon any such roadway, no person shall stand or park a vehicle upon the left-hand side of the one-way roadway unless signs are erected to permit such standing or parking. The traffic engineer is authorized to determine when standing or parking may be permitted upon the left-hand side of any one-way roadway and to erect signs giving notice thereof. (1973 Code, § 11-217)

15-1415. Stopping, standing or parking near hazardous or congested places. (1) The traffic engineer is authorized to determine and designate by proper signs places not exceeding one hundred (100) feet in length in which the stopping, standing or parking of vehicles would create an especially hazardous condition or would cause unusual delay to traffic.

(2) When official signs are erected at hazardous or congested places as authorized by subsection (1), no person shall stop, stand or park a vehicle in any such designated place. (1973 Code, § 11-218)

15-1416. Opening and closing vehicle doors. In no case shall the stop for loading and unloading of materials exceed thirty (30) minutes.

(b) The driver of a passenger vehicle may stop temporarily at a place marked as a freight curb loading zone for the purpose of, and while actually engaged in, loading or unloading passengers when such stopping does not interfere with any motor vehicle used for the transportation of materials which is waiting to enter or about to enter such zone. 15-1419. Designation of public carrier stops and stands. The traffic engineer is authorized and required to establish bus stops, bus stands, taxicab stands and stands for other passenger, common-carrier motor vehicles on such public streets in such places and in such number as he shall determine to be of the greatest benefit and convenience to the public. (4) The operator of a taxicab shall not stand or park the vehicle upon any street at any place other than in a taxicab stand so designated as provided in this section. This subsection shall not prevent the operator of a taxicab from temporarily stopping in accordance with other stopping or parking regulations at any place for the purpose of and while actually engaged in the expeditious loading or unloading of passengers. (1973 Code, § 11-223)

15-1421. Restricted use of bus and taxicab stands. In the event any vehicle is stored in a public garage, a copy of such notice shall be given to the proprietor of the garage.

(3) Whenever an officer removes a vehicle from a street under this section and does not know and is not able to ascertain the name of the owner or for any other reason is unable to give the notice to the owner as provided in subsection (2), and in the event the vehicle is not returned to the owner within a period of three (3) days, then and in that event the officer shall immediately send or cause to be sent a written report of the removal by mail to the state department whose duty it is to register motor vehicles and shall file a copy of the notice with the proprietor of any public garage in which the vehicle may be stored. (6) On the east and west sides of Woodlawn Avenue, beginning at Broadway and extending north to Main Street. (1973 Code, § 11-232)

15-1502. Deposit of coins; time limits; meters to bear legend. (1) No person shall park a vehicle in any parking space upon a street alongside of and next to which a parking meter has been installed, between the hours of 8:00 A.M. and 6:00 P.M. on any day except Sundays and Christmas, unless a coin or coins of United States currency of the appropriate denomination as provided in this subsection shall have been deposited therein or shall have been previously deposited therein for an unexpired interval of time and the meter has been placed in operation. The deposit of a coin or coins of United States currency in the following denominations shall authorize lawful parking only for the periods indicated:

- (a) Upon the deposit of one (1) dime or two
(2) nickels. 120 minute
- (b) Upon the deposit of one (1) nickel. 60 minutes

(2) Each parking meter shall bear thereon a legend indicating the hours when the requirement to deposit coins therein shall apply, the value of the coins to be deposited and the limited period of time for which parking is lawfully permitted for various coins in the parking meter zone in which the meter is located. (1973 Code, § 11-233)

15-1503. When deposit of coins not required. The placing of coins in parking meters shall not be required of the owner or operator of any vehicle while actually engaged in the loading or unloading of persons therefrom, if the parking for such purpose is restricted to such length of time as is absolutely necessary therefor, nor shall it be required in the case of commercial trucks loading or unloading merchandise; however, such loading and unloading of merchandise is continuous and shall be restricted to such length of time as absolutely necessary therefor and to places of business where it is not possible to load, unload, receive or deliver merchandise at a rear entrance. Nothing in this section shall be so construed as to permit double parking at any time for any purpose whatsoever. (1973 Code, § 11-234)

15-1504. Parking meter spaces. The traffic engineer shall be responsible for having the parking space adjacent to each parking meter designated by appropriate markings upon the curb or the pavement of the street. Parking meter spaces so designated shall be of appropriate length and width so as to be accessible from the traffic lanes of the street. (1973 Code, § 11-235)

15-1505. Occupancy of more than one space. No person shall park a vehicle in any designated parking meter space during the restricted or regulated time applicable to the parking meter zone in which the parking meter is located so that any part of such vehicle occupies more than one (1) such space or protrudes beyond the markings designating such space, except that a vehicle which is of a size too large to be parked within a single designated parking meter zone shall be permitted to occupy two (2) adjoining parking meter spaces when coins shall have been deposited in the parking meter for each space so occupied, as is required in this chapter for the parking of other vehicles in such spaces. (1973 Code, § 11-236)

15-1506. Responsibility for installation and operation of meters. The traffic engineer shall be responsible for having all parking meters installed upon the curb immediately adjacent to the parking space regulated and for maintaining them that they shall display a signal showing lawful parking upon deposit therein of a proper coin of the United States in conformity with the requirements of this section, which said signal shall remain in evidence until the expiration of the lawful parking period, at which time it will indicate by automatic operation of a visible signal that said lawful parking period has expired. (1973 Code, § 11-237)

15-1507. Unlawful parking. It shall be unlawful during the hours between 8:00 A.M. and 6:00 P.M., except on Sundays and Christmas, for any person to park or permit a vehicle under his control to be parked in a designated parking meter space while the parking meter for the space indicates that the vehicle is illegally parked, whether the indication is the result of the failure to deposit a coin or operate the lever or other actuating device of the meter, or is the result

of the automatic operation of the meter following the expiration of the authorized parking time subsequent to depositing a coin therein at the time the vehicle was parked. However, this section shall not apply to the act of parking or the necessary time which is required to deposit immediately thereafter a coin in such meter. The fact that a vehicle is parked in a metered parking space during the hours of limited parking without the meter time signal showing permitted parking, shall be prima facie evidence that the vehicle has been parked in the space longer than the lawful parking period. It shall be unlawful for any person to cause or permit any vehicle registered in his name to be unlawfully parked as set out in this section. (1973 Code, § 11-238)

15-1508. Use of slugs. No person shall deposit or attempt to deposit in any parking meter, any slug, button or any other device or substitute for a coin of United States currency. (1973 Code, § 11-239)

15-1509. Tampering with meters. No person shall deface, injure, tamper with, open or willfully break, destroy or impair the usefulness of any parking meter. (1973 Code, § 11-240)

15-1510. Collection of coins. Coins shall be collected weekly from parking meters by such persons as the board of mayor and aldermen shall from time to time designate. For the protection of themselves and the interest of the city, the collectors shall always work in pairs. After collecting and counting the parking meter revenue, the collectors shall deposit it to the city's account in such bank as the board of mayor and aldermen shall designate. The bank deposit slip shall be immediately delivered to the recorder. The collectors shall retain duplicate deposit slips which they shall turn over to the board of mayor and aldermen at the board's next regularly scheduled meeting. It shall be unlawful for any person other than the collectors designated by the board of mayor and aldermen to open a parking meter coin box. (1973 Code, § 11-241)

15-1511. Use of revenue. The coins required by this chapter to be deposited in parking meters are levied and assessed as fees to cover and shall be used to cover, the regulation and control of parking upon public streets; the costs of parking meters, their installation, inspection, supervision, operation, repair and maintenance; the control and use of parking spaces; for regulating the parking of vehicles in parking meter spaces; the costs of acquiring establishing, improving, maintaining, and operating public off-street parking facilities; and for other lawful purposes. (1973 Code, § 11-242)

15-1512. Enforcement. (1) It shall be the duty of the police officers to report the following:

(a) The serial or identifying number of each parking meter which indicates that the vehicle occupying the parking space adjacent to the parking meter is parked in violation of any of the provisions of this chapter;

(b) The state license number of the vehicle;

(c) The time during which such vehicle is parked in violation of any of the provisions of this chapter;

(d) Any other facts which are necessary for a thorough understanding of the circumstances attending the violation.

(2) Each police officer shall attach to a vehicle a notice to the owner or operator thereof that such vehicle has been parked in violation of this chapter and instructing such owner or operator to report at the police headquarters of the city with regard to the violation. Each owner or operator may, within twenty-four (24) hours of the time when the notice was attached to the vehicle, pay to the recorder as penalty for and in full satisfaction for the first such violation, the sum of fifty cents (\$0.50); for the second violation, if paid within twenty-four (24) hours, the fine shall be one dollar (\$1.00); and for the third, two dollars (\$2.00). The failure of an owner or operator to make such payment within twenty-four (24) hours and, in any event, for any fourth or subsequent ticket, the owner or operator shall be subject to arrest and punishment under the penalty provisions of this municipal code. (1973 Code, § 11-243, modified)
